A Static and Dust Control Product for DRY use!
The Kinetronics Tiger Cloth is an anti-static, microfiber cloth that has been specifically engineered for cleaning sensitive static prone surfaces. The 10" x 18" (250mm x 450mm) orange cloth has stripes of effective conductive fibers knit every 1/8" or 4mm that dissipate or drain off static charges.

SPECKGRABBER XL KIT

The SpeckGRABBER XL is a unique tool that has been designed to remove individual dust particles from the inside of glass or plexi without opening the entire frame. A soft, sticky pad on the end provides a high adhesion surface that dust particles stick to, and leaves no residue on the contacted surface. This saves time and money.

The SpeckGRABBER XL Kit contains: Three SpeckGRABBER XLs, an Anti-Static Tiger Cloth and a one-ounce bottle of Precision Cleaning Solution. These products are packaged in a heavy vinyl storage pouch.

ANTI-STATIC GLOVES

Kinetronics© offers the ASG glove, a remarkable blend of soft conductive and synthetic fibers. The conductive gloves suppress dust collecting electrostatic charges when handling delicate and sensitive static prone materials.

Use gloves when handling glass, plastics, art work and photographs to prevent fingerprints and scratching. Gloves may be washed.

Kinetronics© ASG are sold in pairs and made in three sizes to comfortably fit SMALL, MEDIUM and LARGE size hands.

ITEM#
GLOVES-AS
Anti-Static Gloves

ANTI-STATIC BRUSHES

The unique blend of soft natural hairs and conductive synthetic fibers plus the conductive nature of the construction result in effective static dissipation. Dust and lint are whisked away.

Conservatively elegant, the hidden rail is extremely discreet, it works with steel and or perlon cables. The Click Rail system accommodates any interior, offers the high quality that is demanded by art professionals such as art galleries and museums but at an affordable price for smaller customer such as home users. It offers added value to the wall decoration in any space!

The aluminum rail is mounted to the wall by means of fastening clips.

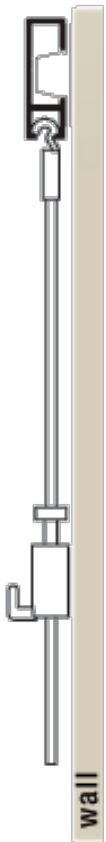

End caps and corner connectors ensure a neat finish. The rail is available in three colours: primer/mat white, glossy white and brushed aluminum.

The primer/mat white has a special lacquer layer (primer) which can be painted over using latex or enamel paint.

Suspension wires can easily be clicked in and out of the bottom side of the rail, using the "Cobra clip".

The wires are available in perlon (transparent plastic) as well as steel version in length of 58" (150 cm) and 78" (200 cm).

#1 Ratchet hook - This hook fastens itself through the weight of the frame. Maximum weight 32lbs (15 Kg).

#2 Locker hook - This hook as a security feature and it fastens itself through the weight of the frame. Maximum weight 32lbs (15 Kg).

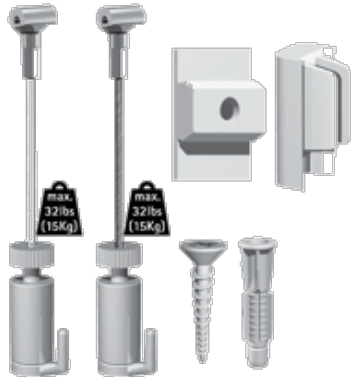

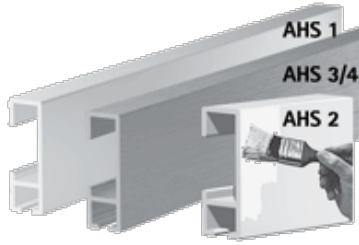

#3 Mini-hook - This hook is easily (manually) fastened with the small bolt. Maximum weight 8.5lbs (4 Kg).
